What to do next

A request has waited **12 days**. Clear the queue in the Manager portal (claims 1 · requests 0 · Rush results 0).

I can't read 1 channel(s) (#staff-room). Give the bot **View Channel + Read Message History** there to include them.

1 trial / scouting card(s) untouched for 7+ days. Reply or mark them declined so applicants aren't left waiting.

4 members have no role. Give new members a role (or set up **Server Settings → Onboarding**) so they see the right channels.

Only **33%** of Discord members have logged in to the site. Pin the Squad Hub login link in #welcome and mention it after games.

22 of 22 squad players haven't claimed their EA player (e.g. itzAldinha27, demboysfrmdawest, x_MrMike_x). Claimed players get badges, stats and the ✅ Verified role.

1 channel(s) silent for 30+ days: #old-news. Archive or merge them to keep chat in one place.

2 roles nobody has: Old Role, Unused. Delete or start using them.
